Project Description

☐ New construction ☐ Addition ☐ Alteration ☐ Accessory Structure ☒ Demolition ☐ Sign

☐ Repainting ☐ Minor Landscaping Structure ☐ CDA Amendment ☐ Other:_____

SIGNS ONLY*: (attached required information for each proposed sign)

☐ Master Sign Plan (please attach details for all proposed sign types) Sign Permit #: _____

☐ Individual Sign: ☐ Freestanding ☐ Projecting ☐ Wall ☐ Window ☐ Awning ☐ Canopy
Sign Area: _____sq. ft. Material: _____ Location of Sign:_____

Contractor: _____
Address: _____ Phone: _____

Written Description Attach additional sheet, if necessary: Describe clearly and in detail the nature of the project, including exact dimensions for materials to be used (e.g., width of siding, windows and window trim, etc.)

See additional documentation. Note: This parcel has one Commercial building and two detached structures. However it has four DHR ID's. This application is only for one of the detached structures that has the DHR ID# 286-5001-0547 and is located at the address listed above.

Acknowledgement of Responsibility

I understand that all CDA application materials must be complete and must be submitted fourteen (14) days before the BAR meeting date and that I or an authorized representative must be present at the meeting; otherwise consideration will be deferred to the following meeting. I agree to comply with the conditions of this certificate and all other applicable Town regulations and to pursue this project in strict conformance with the plans approved by the BAR. I also understand that the BAR or Town Staff may need to perform an inspection of my property as it relates to this application. I understand that no changes are permitted without prior approval of the Town, and that failure to follow approved plans is a violation of the Purcellville Town Code and Zoning Ordinance.

Signature of Owner or Authorized Agent: John M Chapman

Printed name: John M. Chapman

See reverse side of this form for required submission materials. Applications will not be accepted for scheduling without all required materials. The submission deadline for complete applications is fourteen days prior to the meeting date.

CDA APPLICATION FORM (page 2 of 3)

MINIMUM SUBMISSION REQUIREMENTS: Please note that all of the following materials must be delivered to the Department of Planning & Zoning ***14 days*** prior to the BAR meeting or your application will be postponed until the following month's agenda. Include ***twelve (12) copies*** of the following information. Use the checklist below to ensure the application is complete. (Use N/A if item is not applicable to your project).

✓ Application. 12 copies of this application form, filled out in its entirety.

✓ Fee. All applicable fees must be paid to the Town before your agenda item is scheduled.

N/A Architectural Drawings – **12 full size copies and one 11"x17" copy. FOLDED:**

- __ Dimensioned outline of the building
- __ Dimensioned elevation of new construction and adjacent existing elevations
- __ Site Plan(s) with scale 1/8" = 1' (for new construction and additions)
- __ Site Section(s) with scale 1/8" = 1' (when requested by BAR)

N/A Photographs – For new construction/alterations provide at least 3 views of area, for signs provide one view

N/A Specifications of Exterior Materials - **Please complete the attached Architectural Materials Checklist.** Specifications to include, but not be limited to: Roofing, siding, windows & doors, trim work, color scheme, chimneys, shutters, utilities and mechanical equipment locations and specifications, exterior lighting, fencing, walls, and paving. (Include ***color copies*** of manufacturer's specification sheets)

N/A Signs - Detailed scaled drawing showing style and size of letters, color, sample and type of material, and proposed location on the building elevation, with a photograph of elevation under review (if existing building). ***Color copies of the sign face must be provided***.

✓ Demolition – See Demolition section of *Purcellville Design Guidelines* for requirements.

NOTE: All materials submitted will become the property of the Town of Purcellville.

OFFICE USE ONLY – Date of Application: 11-6-13 **CDA#:** 13-22 **Fee:** 50.00 **Paid:** 11-6-13

BAR Action: ☒ Approval ☐ Conditional Approval ☐ Denial Date: 11-19-13

STATEMENT OF JUSTIFICATION
DEMOLITION OF BUILDINGS AT 21ST AND "O" STREETS

This statement is written in support of demolition applications filed by Chapman Group L.C. and Martinsburg Plaza L.C. (collectively the "Applicant"), owners of several buildings located at the intersection of 21st Street and "O" Streets. See Exhibit A, attached hereto, for a full list of properties, subject to these applications

These demolition permits are filed pursuant to applicable provisions of the Purcellville Zoning Ordinance and the Code of Virginia.

As set forth in Section H, Page 31 of the Design Guidelines, the Board of Architectural Review is charged to retain the historic fabric of the Town while balancing ***"the needs of the property owners to make contemporary use of their property".***

The Applicant acquired the properties over 5 years ago for exactly the stated reason – to make contemporary use of the Property. From the outset it has been the Applicant's stated objective in numerous public hearings and workshops to replace the existing buildings with a compact downtown center. In accordance with Guideline 2F (page 32 of the Design Guidelines) the Applicant believes the removal of the buildings is consistent with the goals of the Town Comprehensive Plan.

> ***"The extent to which retention or, in the converse, removal or relocation of the building or structure or group of structures supports goals, objectives or policies of the Town Comprehensive Plan."***

The Applicant has proposed a project, Vineyard Square that is in conformance with the Town Comprehensive Plan, the Downtown Master Plan prepared by Hill Studio and applicable sections of the Town Zoning Ordinance, revisions which were adopted in 2008 addressing the size and scale of the development of the Property (See Sections 9.8.3 and 9.8.4 of the C-4 district regulations).

The proposed re-development of the Property will create housing and retail opportunities in the central area of the downtown district, an area that has limited housing opportunities and few high quality retail spaces.

The impetus to this project began with the downtown charette conducted by Hill Studio as a consultant to the Town of Purcellville. The charette and the result of the charette – the Downtown Master Plan – recognized the need to construct new buildings in the downtown district to increase the diversity of land uses and economic opportunities.

The buildings proposed for demolition are beyond their economic life, having been built in an amateur fashion, and cannot feasibly be preserved as part of the redevelopment. In general the buildings do not comply with Federal law in regards to handicap accessibility and some have been compromised structurally due to fire on the premises. The building identified as 130 North 21st Street was altered to include a vertical vinyl barn style door. The building which is identified as 140-148 21st Street was renovated in 1978 with an inappropriate mansard style roof overhang. Several of the buildings proposed for demolition are sheds or "storage" buildings. According to the reports filed with the Department of Historic Resources four of the structures listed in Exhibit A are sheds or storage buildings. In accordance with Section H.1.(d) of the Design Guidelines at least two of these buildings do not require demolition permits. However the Applicant has been directed by the Zoning Administrator to include all buildings on site in the request for demolition permits.

There is no alternative to demolition. The re-development of the Property includes a parking garage underneath all of the buildings fronting 21st Street. The buildings on the Property, including the buildings on 21st Street, are not capable of being relocated. The buildings along 21st Street are of masonry construction and it is not feasible to re-locate such structures. The metal sheds have limited historical and no economic value.

The Applicant is designing a mixed-use pedestrian oriented center and the existing buildings fail to comply with current building codes, are not structurally sound for any development, and do not meet any criteria for the contemporary use of the Property.
